1. What diversity of perspective, attributes, knowledge or skills would you bring to the office that differentiates you or that the other candidates don't have?

Congress needs new and fresh ideas. We must combat career politicians embedded in the Swamp. This race is about character and integrity. There is so much at stake in 2020, we cannot afford to have a low-energy politician that breaks promises. I am the only Constitutional lawyer in the race. I am legally trained to defend Constitutional rights which is more important than ever with government overreach through Stay At Home orders. I am, also, Unbought, Unbossed, and Unburdened by special interests or the Swamp.

2. What are three things you want to accomplish if you are elected to this office?

1. Protect Constitutional Rights and Law Enforcement Officers (be strong on law and order and prevent future Stay at Home orders). Protect 1st and 2nd Amendment rights which have consistently been infringed upon.
2. Prevent abuse of Antitrust laws that protect free speech on the internet.
3. Protect the life of the unborn.

3. Name one current public policy position you disagree with that you would like to change if elected. Why do you disagree?

I disagree with the allowance of violent rioting and attacks against law enforcement officers through complacency and laissez-faire leadership. ANTIFA, a terrorist organization, has opportunistically destroyed American cities. They have physically

attacked citizens, destroyed business, and ruined lives. Lack of leadership has allowed out of line destruction. In Congress, I promise to never be complacent.

4. What is the most important thing voters should know about you before making their decision in this race?

I am the most qualified Candidate to defend the Constitution. I am, also, the only Candidate that can expand the Republican party, working toward the future of our nation, by inspiring young voters to participate and educate themselves on the legislative process. There are many career politicians in this race that have already been dishonest about their policies and true intentions. There are many candidates who are trying to buy the election. All other candidates already answer to special interests.

I have never run for office or held office in the past because I am not a career politician. I vowed immediately to never accept money from PACs, Lobbyists, or special interests. I promise to be transparent and accountable to the people of SWFL.
