1. What diversity of perspective, attributes, knowledge or skills would you bring to the office that differentiates you or that the other candidates don't have?

I am a young, black, God fearing, conservative who is one of 3 sons that grew up in a household of 2 educators. I understand the value & opportunity that education provides for those with access. Furthermore, my 10 years of experience within the healthcare field provide a unique foundational perspective to draw from regarding healthcare policy. We own other business's as well and when asked, I often tell people that I am an entrepreneur who happens to love chiropractic. That translates into a healthy respect and desire to see a thriving business climate in District 80.

2. What are three things you want to accomplish if you are elected to this office?

1. 1st and foremost provide District 80 with a voice in Tallahassee
2. Protect our constitutional rights
3. Healthcare (Education, Access, HSA)

3. Name one current public policy position you disagree with that you could change if elected. Why do you disagree?

The decision to raise impact fees in collier county is a local position that I would question. Before we seek to raise fees and or taxes I believe that we have a responsibility of stewardship and apparently there was "very little discussion with regard to controlling expenses", according to Commissioner Bill McDaniel.

4. What is the most important thing voters should know about you before making their decision in this race?

Every decision that I make will be filtered through the lens of the constitution, founded in scripture and backed by the collective voices within District 80.

Please email your responses to Sandy Parker, sandy@sparkers-soapbox.com , no later than June 15, 2020.
