1. What diversity of perspective, attributes, knowledge or skills would you bring to the office that differentiates you or that the other candidates don't have?

I have been committed to my community and dedicated to serving others in Collier County since 2001 as a teacher, as a volunteer and as a coach. Throughout my years of service, I have served as chair and member of numerous committees and organizations.

2. What are three things you want to accomplish if you are elected to this office?

1. I want to help lower health cost for seniors, like my parents, and make insurance companies more responsible for patient wellness and care.
2. I want to help provide more educational opportunities for all students regardless of where they happen to live.
3. I want to help preserve our beautiful Florida environment and natural resources for our children and their children.

3. Name one current public policy position you disagree with that you could change if elected. Why do you disagree?

The Hope Scholarship Program. While this program may have been created with good intentions, it doesn't effectively address the core problem, the bully. The bullied student is able to find sanctuary while the bully remains there to begin the bullying cycle again with another student.

4. What is the most important thing voters should know about you before making their decision in this race?

I believe the following quote by Margaret C. Smith summarizes what I believe to be the most important thing about myself and how I will represent my district.

“My creed is that public service must be more than doing a job efficiently and honestly. It must be a complete dedication to the people and to the nation with full recognition that every human being is entitled to courtesy and consideration, that constructive criticism is not only to be expected but sought, that smears are not only expected but fought, that honor is to be earned, not bought.”
