

Madam Chair & Commissioners

Representative Bob Rommel could not be here today but would like to go on record with his statement.

The Ordinance establishing Collier County as a Bill of Rights Sanctuary County that is being put before the Collier Board of County Commission will ensure that the rights of Florida's citizens will remain protected by the U.S. Constitution.

The 10th amendment to the constitution reserves power to the states and to the people. The passage of this ordinance will help show that Florida/ Collier County will **always** defend the US constitution and the citizens of Florida from an over reach of the Federal Government.

For this very reason, I fully support this Ordinance.
State Rep Bob Rommel

Thank you
